

JOB DESCRIPTION: Web Developer

Black Pig has been recognised as one of the Top 100 full service creative agencies in the UK. We have been trading from our Head Office in Royston, Hertfordshire, since 1996 and have award-winning in-house expertise in Brand Development, Design Communications, Strategic Marketing, Web Design & Development, Advertising Campaign Development, Copywriting and Public Relations. We believe in an integrated approach to marketing and that's why we offer a full range of creative services. Our portfolio covers a wide range of industries and we work with large and small organisations across the UK, in both the corporate and not for profit sectors.

We are looking for an experienced and creative web developer to join our friendly and hard-working digital team. You'll be enthusiastic with a positive attitude, dedication and willingness to work hard.

- Minimum 2 years experience of web development.
- Fluent with raw CSS and XHTML. HTML5 / CSS3 beneficial.
- Standards-based semantic coding rather than <table> layouts.
- Good working knowledge of PHP with experience of integrating conceptual designs into WordPress essential. Experience integrating with Drupal / Umbraco content management system frameworks beneficial.
- Knowledge and experience of web accessibility, usability and responsive design.
- Good understanding of cross-platform / device / browser issues.
- Use of JavaScript / jQuery an advantage
- Must have good working knowledge of Adobe Photoshop.

The role will be based at our office in Royston, Hertfordshire. For more details or to apply, send a covering letter and CV including any relevant examples of your work to webjobs@blackpig.co.uk

The job description describes the principal purpose and main elements of the job. It is a guide to the nature of the main duties as they currently exist but is not intended as a wholly comprehensive or permanent schedule of tasks.
